

# "If you're a farmer who wants to make a profit without depending exclusively on OPEC oil, you should talk to us."

We're a results oriented company providing sensible soil management programs and products to farmers who want to abandon unprofitable chemical practices. Fertrell specializes in tillage and rotation programs, soil analysis services and transitional soil corrective programs that work.

## PUT YOUR SOIL IN *Fertrell* HANDS

*Fertrell* is a NATURAL and ORGANIC blend that provides the elements required to build a healthy and productive soil. Its content of watersoluble Nitrogen, phosphorus and Potash will give plants a quick and vigorous start. Then, through the action of soil acids and bacteria on FERTRELL the same elements will provide plants with a complete time released ration of nourishment during their entire growing season, thereby insuring a harvest that is high in food value for man and animals.

*Fertrell* is a complete plant food. It provides the three most essential elements - Nitrogen, Phosphorus and Potash. It supplies the three secondary elements - Calcium, Magnesium - and Sulfur and many trace elements including Boron and Selenium - which aid plants to make optimum growth and produce high quality crops that are full of necessary minerals and vitamins.

*Fertrell* has up to 50 per cent of humus-making materials. Humus in the soil encourages the growth of bacteria and earthworms, both of which are necessary for maintaining the soil in top productive condition. In addition to being a plant food, FERTRELL is a soil conditioner. Its complete range of ingredients works on the soil and keeps it in proper balance.
