FARM ALCOHOL STILL KIT the pumper

From Victory Stills the people who brought you the first home mini still now has another breakthrough for motor fuel dubbed "THE PUMPER".

This do-it-yourself motor fuel still kit is available nationwide.

\$300 INTRODUCTORY OFFER
 Dealer Inquiries Invited

In kit form, we save certain costs which makes our still very competitive. It is an all copper pre-engineered reflux column and condenser, designed to produce 1 gallon or more of fuel alcohol at 180 proof, per hour. Ideal for Farm use, the kit is designed to attach to any drum from 20 gallons plus, capacity. For increase production several "PUMPERS" can be attached to one cooking vessel.

Anyone who ever thought of building a still now has thoroughly tested equipment to use. In a 24 hour period, a sufficient amount of fuel grade alcohol can be made to run your auto all week. Or mix it for GASOHOL. This is fuel grade, not for human consumption.

Although building a still required no Federal permit, operating one does. But fear not the REVENOERS, permit applications are included.

THE "PUMPER" KIT INCLUDES

- Pre-engineered kit to adapt readily to any distillation vessel
- Instructions for assembly
- Yeast and enzyme packs
- Brown's Alcohol Motor Fuel Cookbook

WHAT TO USE

- Starchy vegetable leftovers
- Spoiled fruits & vegetables
- Grains-Corn Potatoes
- Starches - sugars
- Many plants - grasses - trees

What is left after distillation is a high protein animal feed.
