TORQUE AMPLIFIER, CLUTCH & WATER PUMP PARTS & SERVICE

Rebuilt TA assemblies for IH tractors from SMTA through 1586 Water pumps, clutches and pressure plates from A, B, C through 1586 and for many of the combines, 101 - 303 through the 915. The time to be comparing prices and parts availability is before you need them so that when you do need parts and service you are aware of the options.

If you are operating a shop or are a farmer who does his own mechanical work, then you will do well to compare the parts which I have to offer. Complete rebuilt TA assemblies for 706 - 1586 are priced from \$525.00 and come with a Dana Co. heavy duty sprag clutch instead of the usual IH spray. The Dana sprag was originally designed for high performance aircraft and helicopter applications and is designed not to roll over, one of the main causes of torque failure.

Also have available assorted parts for TA's which are not available through new parts at IH. I am prepared to do complete installation of these parts at competitive prices and will match any guarantee that is offered on TA units or rebuilt clutches, pressure plates & water pumps. Prices on rebuilt clutches, pressure plates and water pumps are approximately 30 - 50% below new.

If you think you may have problems with your TA and would like it checked out or some questions answered call or write me. Trucking is available up to most any distance at fair rates if we have enough advance notice. Two or more tractors on same load will receive discount on the trucking.
