Year-Round Ventilation

With Northco[®] Ventilation Systems

ROOF EXHAUST

- Uses nature's principle that cooler air drops as warm air rises
- Greater efficiency
- Lets you ventilate to control temperature and moisture
- An optional failsafe can help protect your investment during temporary power outage

BAFFLE INTAKE

- 6" or 10" wide insulated baffle gives you versatility for the size system you need
- Reduces drafts
- Can be manually or automatically closed down for winter
- Reduces heat stratification

Experience You Can Trust

Lipp

For Liquid Manure Storage.

Unique construction methods mean Lipp builds unique manure tanks—in fact the strongest tank on the market today

We roll our tanks upward on location from coils of steel and seal the coil edges with a unique double fold lock seam. The result is a bottless smooth inner wall tank in 12 to 90 foot diameters and up to 900,000 gallon capacities. Interiors can be epoxy or Black Klad with aluminized or galvanized exteriors. And construction is quick.

We're Lipp. We're different and we're better. Storage is our specialty. Call or write today and get more details on the strongest manure tank available.

SEALSTOR

IMMEDIATE ERECTION

SPECIAL SUMMER DISCOUNTS ON HAYLAGE & HIGH MOISTURE CORN STRUCTURES

POW-R-SWEEP
auger unloads high moisture grain that won't free flow!
(even ground ear corn)

Laidig bottom unloaders do just that! Unload grain from center to wall all round the base. POW-R-SWEEP auger makes a 360° cycle. Prevents bridging, reduces spoilage and frozen masses. Ruggedly built for low maintenance. Wide choice of model sizes. Adjustable unloading speeds. Dependable parts and service if and when needed.

Easy to install in new or standing sealed silos.

Laidig 98's "slashing knives rip out forage for sure, no-stall unloading

Tough tungsten tipped knives slash thru tangled or frozen forage to move out the volume you set on controls. Floor track gear drive at outer end of auger means positive no-stall unloading. Laidig design and ruggedness prevents many break downs and repair costs often associated with other bottom unloaders. Insist on a Laidig.

WE OFFER

- The Best Bottom Unloader Available
- THE LAIDIG
- The SEALSTOR Forage, Grain and Liquid Manure Systems
- Feed Lot Planning
- 24 Hour - 7 Days A Week Service
- Farm Profit Planning
- Professional Sales and Service Staff
