

Strange signs confront Strasburg drivers

Perhaps some childhood fantasies or a need to clean the leaky boots out of the basement during Spring cleaning prompted this garden arrangement.

Country people have a way of livening up their days with antics such as this road marker on a lane near Strasburg.

Some people collect chamber pots. This one adorns a tree within spitting distance to Boot Hill and Polecat Boulevard near Strasburg.

Meet Eastern's new directors

SYRACUSE, NY — Eastern Milk Producers Cooperative has announced at its Syracuse, N.Y. office the seating of three new directors on its Board of Directors. They are George Haddad, of Bainbridge, N.Y., Earl Forwood of Hop Bottom, Pa., and Noah Prior of Evans Mills, N.Y.

Haddad replaces Max Lonstein of S. New Berlin, N.Y. as Director of District 10. He owns a large dairy farm and has served as Delegate and Vice President of the Bainbridge Local, as

well as a member of the Special Audit and Resolutions Committees of the Association.

Forwood was seated as Director of District 9 in northeastern Pennsylvania, replacing Arden Tewksbury of Meshoppen, Pa. He has been a member of the cooperative for over 20 years and has served as an officer of the Hop Bottom Local during that period as Alternate Delegate and Treasurer.

Noah Prior has been seated as Director of

District 6 in the northern part of New York State to replace Mark Freeman of Black River, N.Y. He has been a member of the Douglas Crossing Local for 10 years and has served as that local's Delegate for the past 3 years.

The new Directors will serve one three-year term with a maximum of three three-year terms on Eastern's Board, if re-elected by their respective districts. Lonstein, Tewksbury and Freeman had each served their limit of 9 years upon retiring.

TORQUE AMPLIFIER, CLUTCH & WATER PUMP PARTS & SERVICE

Rebuilt TA assemblies for IH tractors from SMTA through 1586. Water pumps, clutches and pressure plates from A, B, C through 1586 and for many of the combines, 101 - 303 through the 915. The time to be comparing prices and parts availability is before you need them so that when you do need parts and service you are aware of the options.

If you are operating a shop or are a farmer who does his own mechanical work, then you will do well to compare the parts which I have to offer. Complete rebuilt TA assemblies for 706 - 1586 are priced from \$525.00 and come with a Dana Co. heavy Duty Sprag clutch instead of the usual IH spray. The Dana Sprag was originally designed for high performance aircraft and Helicopter applications and is designed not to roll over, one of the main causes of torque failure.

Also have available assorted parts for TA's which are not available through new parts at IH. I am prepared to do complete installation of these parts at competitive prices and will match any guarantee that is offered on TA units or rebuilt clutches, pressure plates & water pumps. Prices on rebuilt clutches, pressure plates and water pumps are approximately 30 - 50% below new.

If you think you may have problems with your TA and would like it checked out or some questions answered call or write me. Trucking is available up to most any distance at fair rates if we have enough advance notice. Two or more tractors on same load will receive discount on the trucking.
