Unarco Rohn provides Long Life Performance with the BEST Protection Known to Man . . .

HOT DIP GALVANIZING AFTER WELD

NURSERY CAGES

Obtain the maximum use of your pork production facilities with Rohn Nursery Stack Pens. A proven boost to pig performance, Nursery Stack Pens provide a cleaner, dryer, safer, and more draft-free environment for the growing pig. Stack Pens can also reduce fixed building costs by doubling the number of pigs per square foot of available floor space.

Rohn Nursery Pens are constructed of strong, angular steel legs and frame that feature a Wire-Mesh Flooring—all of which are **HOT DIP GALVANIZED AFTER FABRICATION** for the utmost in corrosion protection. Wire-Mesh Flooring has 60% open spacing and a smooth, rounded surface that sheds waste and moisture build-up while preventing knee and foot abrasions.

Side panels swing from either end and are constructed of solid steel vertical rod which is **HOT DIP GALVANIZED AFTER FABRICATION**.

Specifications:

Pen Area: 4' x 4', 4' x 8'

Height:

Elevated Pen: 5'9" (from the floor to the top of the side panel) Bottom of the pen is 3'7" from the floor

GESTATION STALLS IN STOCK

Sloped Front Stall

Rohn Rigid-Tube® Gestation Stalls feature all-welded construction and are **HOT DIP GALVANIZED AFTER FABRICATION** for complete corrosion protection inside and out.

The unique design of the Sloped Front Gestation Stall offers the advantages of added security during stress periods because hogs are unable to climb the front gate, and because the front gate slopes, more work room is available in the aisle.

Specifications:

Height: 41"
Length: 7'
Width: 22"

Clearance Sale Special **\$100⁷⁴** ea.
