

New Castle, Delaware horse show August 2

NEWARK, Del — The New Castle County 4-H Junior Council will be sponsoring a horse show August 2. The show will be held at the Sandy Brae Horse Farm owned by Richard Russell, 2142 Pleasant Valley Road, Newark.

*This show is open to all members in the community. The show is an accredited show of the combined Eastern Horse Show Association, but membership is not required for showing.

Classes will include English, western and hunter. Prize lists can be obtained

from the County 4-H office by calling 302/738-8965 or writing to the County 4-H office, 120 Agricultural Hall, Newark, DE 19711.

There will be approximately 75 classes and the show will get underway at 8:30 a.m. Food can be purchased from the refreshment stand.

The purpose of the show is to help raise funds for the purpose of sponsoring different 4-H activities in the county. It is hoped that these funds could be used to help reduce the cost of weekend camping trips.

One such weekend was

held last April at Cape Henlopen State Park for 4-H'ers in New Castle County between the ages of 9 and 14. Funds will also be used for

out of state exchange trips. 4-H'ers from New Castle will be traveling to St. Charles County, Missouri this August.

Central Dairy 4-H Club plans family picnic

EAST BERLIN — Members of the Central Dairy 4-H Club presented a debate — milk versus soda pop — at the recent meeting of the Thomasville Community 4-H Club at the 4-H Center near Bar.

Mike Welsh, chairman, Neil and Shane Seidenstricker, Robert Haskins, and Steve Eisenhart will be entertaining guests of the Homewood Retirement Center, Hanover, today as part of their community service project.

Club members approved a donation to the county fashion revue committee and the placing of an ad in the York County 4-H Fair catalog.

Reports given at the meeting were family movie night, Susan Eisenhart; five county camp, Jon Haskins; chicken barbecue, Shane Seidenstricker; and Indiana County exchange, Mike Welsh.

A letter in appreciation of the club's petting zoo at the World's Largest Yard Sale was received from the Society of Juvenile Diabetes Research.

The club is planning a bus trip to Harrisburg on Friday, August 8. The next meeting of the club will be a family picnic at 7 p.m. on Tuesday, July 22 at the 4-H Center followed by a micro-mini tractor pull.

Santee Acres

Mangers are swept every morning so the cows are tempted with fresh feed daily

Herdsmen Earl Myers, who has been with the Benners for seven years, keeps the cows milking. "An all-around good man for the farm," Ken says.

It would seem appropriate the Benners milk would go from a Pennsylvania farm to Maryland and Virginia Cooperative, considering their backgrounds in Virginia.

They had shipped to Eastern and later followed their hauler to Lehigh. After the big Lehigh assessment in 1974 they again moved with

their hauler to Maryland and Virginia.

"It's nice to get extra checks now instead of being assessed," Jane comments.

Jane actually is the Young Cooperator award winner. Ken is 36, one year too old for the competition. But their fieldman encouraged Jane, in every way a full partner in the operation, to enter the competition.

It took some time for her to make the entry, answer the questions, and travel to Maryland.

But like the AI work, or home mixing feed, the Benners found that a little time well spent can reap large rewards in the end.

NOW!

ALFALFA MANAGEMENT

Spray - Immediately after 2nd cutting of hay for blotch miner & leaf hopper.

Fertilizer - Alfalfa needs two applications each growing season.

Lime - After 2nd cutting while ground condition is good.

A new drive system for even faster unloading

The new John Deere 714A and 716A Forage Wagons can now unload faster than ever Top speed has been increased to 11.5 feet per minute to keep your silage-making operation running smoothly Capacities of 593 and 677 cubic feet mean fewer trips to the silo See the 714A and 716A today

AFFORDABLE

Here's why a move from pull-type to self-propelled forage harvesting can pay for itself

A self-propelled forage harvester is an investment, not a luxury You're purchasing the ability to harvest more of your silage at its nutritional peak You're gaining the ability to open your own fields, and the extra maneuverability self-propelled harvesting offers You have in your hands the ability to keep your entire silage operation (from field to silo) running at full capacity Now you can use your high-horsepower tractors for other jobs You may be able to reduce manpower needed. Adverse field conditions are no longer a major problem.

Come in and sit down with us Let's talk about your silage operation and why your next move should be to self-propelled harvesting

No silo too tall... for this 1000-rpm forage blower

There are no bottlenecks at the silo with this heavy-duty blower, designed for 90-hp and larger tractors. Just one continuous silage pipeline from field to storage as the 6000 Blower throws it home with a blazing fan-tip speed of 143 mph
