POWER SIZES FOR ANY JOB!

Take the strain from lawn and garden chores with a John Deere Tractor

John Deere Lawn and Garden Tractors are "human engineered" for your comfort and safety. All feature adjustable padded seat, roomy operator's area, 2-position footrests, and a fully enclosed engine for quieter operation. Triple-safety starting to guard against accidental starts. Easy-to-use color coded controls. Built-in headlights. And a switch that automatically shuts off the engine if you leave the seat with the PTO engaged.

The 200 Series offers three power sizes — 10-, 12-, and 14 hp. All have 4 speed transaxles and variable speed drive that lets you slow down or speed up within each gear without clutching or reducing the working speed of power operated implements.

Mechanical lift is standard with electric lift or hydraulic lift available as options.

The 300 Series — Versatile and Dependable. The 314 has a 14-hp engine, the 317, a 17-hp twin-cylinder engine. Both have super smooth hydrostatic drive for an infinite number of travel speeds — ½ to 6½ mph. The 314 has single function hydraulics, the 317, dual-function hydraulics.

The 19.9-hp 400 is our most powerful lawn and garden tractor. It has a twin cylinder engine, two speed rear axle, and super smooth hydrostatic drive. Power steering provides superb maneuverability in tight areas. Triple function hydraulics handle a wide range of front-, mid- and rear-mounted implements.
