### THE NEW TURBOCHARGED HERCULES 160 By SAME — 145 PTO H.P.

What Makes SAME Tractors Better?  
 The SAME Air-Cooled Diesel Engine!

2 3 4 5 or 6 cylinder inline diesels provide 35 to 140 h.p. for the 21 models of SAME 4 WD and 2 WD tractors

These fuel efficient engines have double (air and oil) cooling systems and have direct fuel injection from camshaft operated pumps for easier starts reliable performance and lower fuel consumption (up to 40%)

Being air-cooled, there is no radiator hoses, thermostats, water filters no water pump, no anti freeze no boiling, no freezing so about 40% of the down time problems connected with liquid cooled engines are eliminated You benefit by lower original cost, lower operating and maintenance costs, faster warm up to most efficient operating temperature, and longer engine life to name a few

Cylinders and heads are individually replaceable and all vertical parts are interchangeable This means faster easier servicing and maintenance as well as fewer parts to stock

Of course, the engine is only part of the story see your SAME dealer to check out, test drive and learn about all the special features that SAME offers including a limited 2 yr /3000 hrs warranty and a surprisingly low price tag
