

MOVE GRAIN WITH AIR

- Save Money & Labor
- Utilize existing flat storage

We have PTO or self-powered units with a wide range of capacity.

Put your farm buildings to better use by storing grain in them. Buy a Neuro pneumatic grain conveying system to blow grain into, and vacuum grain out of, flat storage. One man can operate a Neuro system. Go anywhere with a Neuro—it's portable and versatile. We can show you several more good reasons why a Neuro pneumatic grain handling system is your best investment. Let us demonstrate a model on your farm. Contact us this week for full details.

ATTENTION FARMERS! ADVANCED AG SYSTEMS INTRODUCES CIRCLE STEEL BUILDINGS

DO YOU REALLY NEED A STORAGE BUILDING THIS GOOD?

If you could afford a new building every 10 years, a Circle Steel building wouldn't be necessary. But most farmers make an investment in a building that will last longer than 10 years...many are investing in Circle Steel to get that longer life with less yearly maintenance.

If you want long-term return on your building investment, make it a Circle Steel...from

Bucks 4-H presentation night held

DOYLESTOWN — Model airplanes, painted rocks, and outdoor equipment were some of the items that 4-H members showed at the Bucks County 4-H presentation night recently at Neshaminy Manor Center, here.

4-H members presented speeches and demonstrations telling the audience about their 4-H project. The blue ribbon winners will go on to compete at 4-H State Achievement Days this week at Penn State.

Winning blue ribbons in the senior demonstration contest were: Greg Rodel, Richboro, model airplanes, and Beth Schultz, Churchville, Pennsylvania Dutch cuisine. Other blue ribbon winners were Lisa Comly, Ottsville, outdoor camping, and Kyleann Burt, Richboro, Rocks with Paint.

Tom Tomlinson, Wrightstown, presented a speech entitled What Will Become of 4-H Members Tomorrow 4-H in My Home and Community was the title of the speech by Cathy Bray, Yardley. Both Tom and Cathy received blue ribbons.

The judges for the evening were Annette Gross, Pipersville, and Paula Scheetz, New Britain.

For more information about 4-H, call the Bucks County Cooperative Extension Office, at 215/343-2800, extension 240.

**"Harvestall
Chillcuring
works great.
I get top
quality corn
for
less than
I used
to pay for
shelling
alone."**

ANDY GLICK, Oley, Pa.

"I used to get my crib corn shelled for feeding my hogs. But since that cost around 8¢ a bushel even before hauling costs, I decided I'd be better off with storage. I went with the Harvestall and have never regretted it.

"I've put as high as 32% moisture corn in my Harvestall and you know, I've never had a mold problem."

"So I'm impressed with the Harvestall system and the quality corn I get with it. And I get it cured down for less than it used to cost just for shelling.

"I've recommended the Harvestall to my friends. I'm really happy with it."

The Harvestall Chillcuring System

It's simple. When grain comes out of the field it's a living seed. So instead of destroying the seed with high heat, moisture is removed with natural air ventilation. The grain keeps all its feed value; there is less shrinkage than with heat drying because only moisture is removed, not dry matter. You'll never see white dust in Chillcured corn. You actually save half of what you're used to losing in heat shrink.

There's no gas or oil to buy. Natural air carries away heat and moisture as the corn releases it.

Harvestall Chillcuring is a back-to-basics system that just simply makes good sense. Find out more about it.
