## Youth for understanding seeking hosts

LANCASTER — Youth for Understanding, a non-profit international student exchange program, needs host families in the community for students arriving from Europe and Latin America. Students will attend local high schools and share daily life with host families, participating, as family members, not as guests.

A typical YFU student is a teenager, eager to learn, highly motivated and interested in improving world relations (as well as discovering the joys of fast food).

YFU Program fees and

students' personal expenses are provided by the Students' natural families - host families provide room, board and love!

YFU was founded in 1951 and since then has arranged for more than 70,000 student exchanges in 24 countries. Students are carefully selected and matched with host families and areawide regional volunteers provide support services and guidance throughout the exchange experience.
