**WANTED:**

Tractor Specialists to make and sell profit!

As a Case dealer you sell products that turn profits — for you and your customers

'You'll be the Tractor Specialist With 14 sizes of 2 wheel and 4 wheel drive tractors plus heavy duty tillage tools. And that's it! Our way is efficient. It lets you concentrate your sales and service efforts. Your parts inventory is clean and financially manageable. And your used equipment lot deals mainly with fast moving tractors

If you'd like to be doing better than you are, maybe we can do something about it with a Case Tractor Specialist franchise. Ask about our light construction line too. Call or write for full information

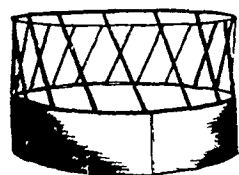

Are you interested? Please contact **W. M. KIMBROUGH** Dealer Development Manager J I Case Company P O Box 50128 Indianapolis, Indiana 46256 or call collect **(317) 849-4770.**

**Save Energy and get FREE HOT WATER...**

The Mueller Fre Heater\* conserves energy and provides free hot water by capturing the heat now wasted!

**HERE'S HOW IT WORKS**

Rather than using noisy dust creating fans with fragile dirt collecting air cooled condensers the refrigerant is routed to a specially designed condenser/heat exchanger and its heat is transferred to the water. A thermostatically controlled valve delivers approximately 140°F water to the storage tank. In addition to the thermostatic valve a mixing valve is provided to permit prepping temperature water. Thus the Fre Heater delivers two temperatures of water — prepping and washing. ELIMINATES REFRIGERATION SERVICE PROBLEMS! The most common causes of slow cooling in milk cooling systems are related to the air cooled condenser.

The Fre-Heater eliminates these problems because:

- There is no air cooled condenser
- The Fre Heater is installed indoors
- There are no noisy fans to fail
- The head pressure is very stable — assuring longer compressor life
- There are no cold weather starting problems plus the Fre Heater conserves energy and produces Free Hot Water!

**HOW MUCH HOT WATER CAN BE GENERATED?**

There are many variables so this question cannot be answered directly however as a rule of thumb a Fre Heater operating on 60° F well water will produce a volume of approximately 140° F water similar to the amount of milk produced during a milking. For more information write for Literature No BC 210
