

Pa. youth named to National Jr. Angus board

ST. JOSEPH, Mo. — Dale Rains, Mercer, was recently selected to serve as a director on the board of the National Junior Angus Association.

One of 31 candidates, Rains was selected during the Junior's annual meeting held in Wichita, Kansas in mid-July. He will serve as coordinator of the rules committee.

John Kiesewetter of Farmington, Illinois, was elected chairman of the 12-member board. George McDonald, Riddletton,

Tennessee, was chosen vice chairman and coordinator of the activities committee.

Other coordinators include: Mark Wyble, Opelousas, Louisiana, achievement committee; Brad Staley, Hampton, Iowa, finance committee; and Tracey Chapman, Manchester, Georgia, communications committee.

Other board members elected are: Bruce Kroeker, Hutchinson, Kansas; Jodie Wallace, Ripley, West Virginia; Sharon Diuble, Ann Arbor, Michigan; Julie

Young Angus breeders joined forces recently to form the National Junior Angus Association and elect the first national-Junior board of directors. Pictured with Jerry Lipsey (back row, left), director of Junior activities for the American Angus Association, are board members: (front row, left to right) Julie McMahon, Ft. Smith, Arkansas; Tracy Crose, Napa, California; Angie Hunt, Milton, Indiana; Tracey Chapman, Manchester, Georgia;

Jodie Wallace, Ripley, West Virginia; Sharon Diuble, Ann Arbor, Michigan; (back row, left to right) vice chairman of the board George McDonald, Riddletton, Tennessee; Mark Wyble, Opelousas, Louisiana; Dale Rains, Mercer, Pennsylvania; Brad Staley, Hampton, Iowa; Bruce Kroeker, Hutchinson, Kansas; and chairman of the board John Kiesewetter, Farmington, Illinois.

McMahon, Ft. Smith, Arkansas; Angie Hunt, Milton, Indiana; and Tracy Crose, Napa, California. The next meeting of the

national junior board is set for November 16 in Louisville, Kentucky, in conjunction with the North American International.

THE PATZ SOLUTION: Reliable Year-Round Feeding

You know the problems caused by hard packed and frozen silage. Patz gives you two solutions to the problem — the Model RD-790 ring-drive silo unloader and the Model 98B surface-drive silo unloader.

Both unloaders feature a double-hook gathering chain with hardened steel cutters and claws that rip through frozen and packed silage. When you push the button, you know you can count on a smooth feeding operation.

Evaluate our powered silo wall cutters. Spring tension holds 4 self-sharpening steel cutter blades in place to follow the curve of the silo wall. This keeps silage from building up along the walls, so you can be sure that you're getting all the feed where it belongs... in the feeder and not stuck to the walls.

The claws and cutters of the gathering chain deliver a steady flow of silage day after day.

Want to know more about the Patz system? See your Patz dealer. He'll show you Patz quality and reliability — two important words to a farmer like you.
