

FMBA Farm Tour — scenes from

The Behrers feed their cows three separate rations according to production. The rations are mixed according to a Penn State forage testing service feeding program.

The new 80 stall calf barn at John and Mike Behrer's Farm permits easier handling and feeding. The Behrers have noticed less death loss and faster growth with the new calf barn.

A new 170 head free stall barn will be used by Bob Oliver to increase his herd size from 120 to 140 head with a total herd output forecast at 2.1 million pounds this year.

John Behrer and his son Mike, left, opened their farm as one of the stops on the FMBA Service Farm Tour Tuesday. Other stops included the Bob Oliver farm in Spruce Creek Valley and the Penn State milk and forage testing labs.

Heifers started in to 1 of the 25 outside

This concrete trellis corn on the Behrer farm.
