

Badger builds systems. Take a part.

When's a part as good as a whole?
When it's part of a Badger system
Badger builds complete feed
handling, barn cleaning and manure
handling systems. Systems made up
of many interlocking pieces of
machinery. Systems you can take as
a whole. Or take any single im-
plement.

You can choose all or any part of

1. Feed handling systems - equipment to move feed into stor-
age and out to the livestock
2. Barn cleaning systems - equipment to move manure out of
barns and feedlots
3. Manure handling systems - equipment to move liquid and
solid manure to storage and out into the field

Take any one machine out of a Badger system and you'll be
taking a variety of options for future growth. You can add
equipment whenever you see fit. Without starting all over with
brand-new implements.

Because the first piece of Badger equipment you buy is built
to last for years. Always ready to fit into the Badger system you
build around it. Whenever and wherever you choose.

The Badger systems. They're proof that only Badger builds
so many ways to be part of your future.

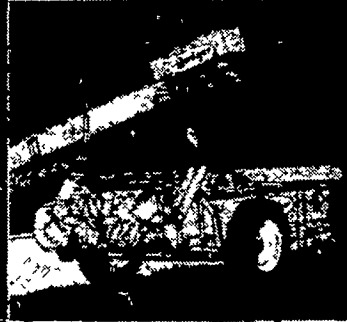

Find out more about systems that can handle your work
from field, to storage, to animal, to field. Write to Badger
Northland, Inc., 1215 Hyland Ave., Kaukauna, Wisconsin
54130.

A subsidiary of Massey Ferguson Inc.

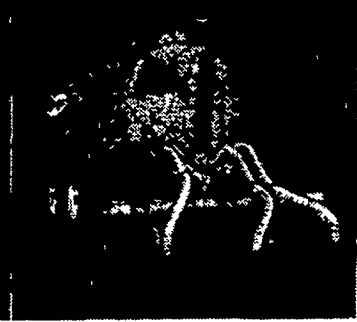

**THE PEOPLE
THAT CARE...
ABOUT YOUR
FARM. YOUR
BUSINESS AND
YOU!**

FEED HANDLING SYSTEMS Includes

From Field to Silo... BADGER Has the System

Forage Blowers — with big 54" fan with cupped
paddles. Thro-action hopper pan for smooth
flow.

Boxes — all metal frames, welded and bolted
construction for maximum strength and
durability.

Mower Conditioner — with the unitized header
and independent wheel suspension for an even
cut. Noninterlocking rolls for maximum con-
ditioning and minimum trouble in the fields.
