

Introducing the new

Chromalloy Manure Bank

The first glass-fused-to-steel structure good enough to come from Madison® Silos

The new Manure Bank saves your money...

With spiraling fertilizer costs, proper manure management can save you thousands of dollars each year. Manure is rich in plant nutrients and vital organic materials. Its greatest value is best conserved as a liquid. And the Chromalloy Manure Bank glass-fused-to-steel manure storage structure is the best way to conserve manure's natural fertilizing ability.

...saves your time...

The Chromalloy Manure Bank is the hub of a well-managed, fully-automated manure handling system. Liquid manure can be stored for months in the Manure Bank, to be used when you and your fields are ready. Liquids are pumped, agitated and unloaded electrically or with PTO. Independent studies indicate, with a 50 cow herd, half the labor is saved compared to stacking solids. And 1/3 the work compared to hauling and spreading every day.

...saves your environment.

Above-ground manure storage with the Chromalloy Manure Bank helps to prevent contamination of streams, ponds and underground water. Unlike lagoons and stacking methods, the Manure Bank requires little precious land, controls odors, flies and pests, provides greater safety for children and animals. With its grey color, the Manure Bank blends in with your farm buildings and the surrounding countryside, making it an attractive, practical improvement.

Manure Bank feature shows in every Madison value

The Chromalloy Manure Bank structure is glass fused to high strength steel, a proven way to store liquid manure. For added integrity and strength, anchor bolts around the base are close and deep-set. Seams are securely bolted. And a special sealant applied to seams inside and out discourages leaks, protects sheet edges from corrosion. A tight bottom seal on both sides of the base cap serves as a positive liquid stop seal. And your new Manure Bank is expertly erected by professional Madison construction crews.

Sizes to fit your needs. Capacities for the family hog farm through the largest commercial dairy or beef operation.

Pump options. Choose from PTO or electric chopper pumps with reception pit, PTO or electric agitation pumps, and powerful single- or double-piston ram pumps

Total System of Choice. Your new Chromalloy Manure Bank completes a System of Choice for silage, a Madison silo; for haylage, the Nutri-Matic[®]; and for high moisture grain, the Grain-O-Matic[®].

Backed by Madison[®] Silos. A leader in farm storage structures since 1914. Eight branch offices plus dealers in 23 states to serve you.

Call or write your nearest Madison Silos branch office listed on the back for more information about the new Chromalloy Manure Bank.

Making things better for you.
