Automatic ELECTRIC FEED PROCESSOR (Automation Mill)

Process and blend 3 or more Ingredients at one time!

(1) Control center (Type III timer system) predetermines and records amount of feed grain (2) Bin Switch regulates input auger, automatically controls grain level in hopper, (not visible), (3) Automatic scale meters preset amount of grain through roller mill, operates automatically and continuously without power, (4) Automatic Roller mill with fast-roll attachment rolls grain, (5) Dial-controlled variable speed augers in electronic meter let you add protein, mineral or medication into mixing auger, (6) Mixing auger mixes and delivers processed feed to take-away auger Supply auger and mill processed preset amount of grain, (7) Accessory hopper with flow switch

Note: The Automatic Dump Scale and feed metering units may be gravity fed from overhead bins or hoppers Flow-control switches are required if input augers are used in place of gravity flow

EAR CORN UNIT

Automatic's ear corn unit handles wet, shucky and even frozen ear corn. The crusher unit shreds the cob followed by rollers that crack the corn, producing a flaky, dust-free feed for greater digestibility. The hydraulically driven intake auger swings to the rear for transport and may be operated at any angle from rear to side.

Dust-free rolled grain is more palatable, easier to digest, eliminates wheezing and many digestive disorders.

Fig 11 tilting discharge auger with 10 ft reach swings down for slant or horizontal delivery

Hydraulic-driven intake auger swings to rear for transport position. May be operated at any angle from rear to side.

Ritchie Fountains deliver. Even in the dead of winter they are out there working. You're not weatherproof. You bet they are. Heating systems and efficient insulation keep water ice free just set the Watt Watcher™ thermostat for minimal energy use. Big throated, non stick plastic valves keep water gushing in. Each of your cows get all the water they need to promote peak production. Ritchie Fountains are tough, too. Quality built with rugged heavy galvanized steel and CD 50 epoxy finish to stand up to weather and barnlot abuse. Why take chances on anything less than a red and yellow Ritchie fountain? Call your Ritchie dealer for water that won't quit.

WATERS EM RIGHT™

Tenderfoot The Original and Still No. 1

Livestock Flooring Fights Stress 4 Ways

- 1** IN FARROWING CRATES
helps piglets avoid crushing, reduces health problems involving poor sanitation, chilling, cuts and abrasions, promotes udder massage
- 2** IN NURSERY PENS AND DECKS
Tenderfoot stays cleaner, is warmer and virtually eliminates cuts and abrasions caused by bare metal or concrete
- 3** AS FINISHING FLOORS
cleanliness, sure-footed security and comfort of Tenderfoot helps fight stress to keep hogs gaining efficiently
- 4** IN BREEDING PENS
boars and sows are sure-footed on Tenderfoot, perform like on dirt, with no fear of slipping or injury
