

## Food dryers popular

Store-bought food dryers are convenient. But before you start anticipating the big savings you will realize on dried food, be sure to calculate how long it will take to save the purchase price of the food dryer.

This food dryer built from a model at Ag Progress Days, is an inexpensive styrofoam chest with a lightbulb as the heat source. The chest is lined with aluminum foil to reflect the heat, and screen is inserted in the top of the chest, with the food placed on the screen. A board wedged crosswise supports the screen. The chest is perforated with inch round holes at approximately 6 separate places, and the lid is placed over the chest. For instructions, ask for Penn State circular entitled Styrofoam Foam Food Cooler for Drying Food. Also available is a paper entitled Drying Vegetables.

# Thank You!

...To DANIEL & DALE WENGER, SURGE DEALERS at Shartlesville Farm Service, for their help during our recent barn fire at Wintersville.

The night of the fire (Wednesday) they came and installed a temporary milking system. By Saturday, the cattle were back in the barn and they had installed a permanent milking system for us.

Because of their prompt help, we avoided a real crisis!

Thank You From:  
JOHN LASER &  
CARL WENGER FAMILY  
Myerstown, Pa.

This solar food dryer was featured at a local energy fair. Simple to make with plywood and sheet roofing painted black, the drying trays are reached easily by means of side doors.

## The pro's choice for productivity.

Increased capacities of F2/K2 Gleaner combines add up to more productivity. Larger separation area and greater shoe capacity mean extra productivity in various field conditions. While larger grain bin capacities (120 bushels on the F2 with bin extensions, 96 bushels with extensions on the K2) reduce the number of unloading stops. You can even choose the optional hydraulic swivel unloader tube to speed-up unloading time. Come in. See why Gleaner combines are the pro's choice for productivity. Gleaner is a registered Allis Chalmers trademark.
