Figuring Fleet Costs? Remember

Propane is better.

Maintenance? Clean-burning LP-gas eliminates carbon build-up and engine sludge that causes poor performance and result in costly downtime for repairs and overhauls

Parts costs? Fewer tune-ups, fewer oil changes, no fuel pump...these mean money in your pocket

Cost per gallon? Figure it out in your own area. Most often, LP-gas wins over gasoline hands down

Fuel availability? Many types of fleet vehicles qualify as priority users of LP-gas. Check your situation with your local dealer.

When a gasoline engine needs replacement an LP-gas powered engine still has a long way to go nearly twice as long. That's like getting two engines for the price of one
