ARE YOU HAVING PROBLEMS WITH SOLIDS AND ODORS IN YOUR MANURE PIT?

— READ THIS AD —

Try Micro-Life — It's Not A Chemical!

IF A CHEMICAL SALESMAN PROMISES A LAGOON LIKE THIS,

HE'S FULL OF HOGWASH.

CHEMICALS ARE ONLY A TEMPORARY SOLUTION TO A LONG-TERM PROBLEM

No matter how many chemicals you try no matter how many high-pressure sales pitches you put up with, you won't end up with hog heaven. Because chemicals wear out quickly. They can't break up solids and lower odors on a long term basis. And besides all that they're very, very expensive considering how little they do.

OUR HOG DIVISION HAS AN ALTERNATIVE TO CHEMICALS AN ALTERNATIVE THAT WORKS THE WAY NATURE DOES

We have a healthy live red purple bacteria culture (not an enzyme) that loves what you and your hogs don't. It thrives and grows in numbers breaking down solids into a harmless fertilizer slurry that's 1 1/2 times the normal strength. While it controls those offensive odors. And it does it all with a simple program. A program that many agriculture editorials have praised. And

that literally thousands of agri. businessmen like you swear by. If you want the names of those in your area we'll be glad to supply them. You see, our customers are our sales force. That's because our product works. And they tell you so.
