

TACKLES ANY FIELD, ANY YIELD!

TWO-ROW PULL SUPER-PICKER

Superpickers . . . 3 steps to harvesting economics!

1. When you invest in an Avco New Idea Superpicker, your initial cost is much lower than that of a self-propelled corn harvester. 2. By cribbing ear corn or shelling when the moisture level is down, you're letting Mother Nature do the drying - without charge. You're avoiding the high cost of drying equipment and conserving valuable fuel. 3. New Idea's unbeatable combination of efficient harvesting and long-life features means you'll get maximum return on your investment.

BIG CAPACITY, COST-SAVING FAVORITE 1-ROW SUPERPICKER

Model 323
One Row Picker

Built For Long, Trouble-Free Service...

From the long, tapered floating points and snapping rolls all the way back to its wide wagon elevator, Superpicker does an outstanding job of bringing in your crop. . . And with your Superpicker, corn cribs, and Mother Nature doing the work, you don't have to worry about the rising cost of fuel for drying.
