## The pro's choice for productivity.

Increased capacities of F2/K2 Gleaner combines add up to more productivity. Larger separation area and greater shoe capacity mean extra productivity in various field conditions. While larger grain bin capacities (120 bushels on the F2 with bin extensions; 96 bushels with extensions on the K2) reduce the number of unloading stops. You can even choose the optional hydraulic swivel unloader tube to speed-up unloading time. Come in - See why Gleaner combines are the pro's choice for productivity. Gleaner is a registered Allis-Chalmers trademark.
