

AUGUST 1980

Cumberland County Dairy Herd Improvement records show that 7969.4 cows in 137 herds were on production testing in August according to Duane G. Duncan, County Agent

Of the 113 Herds on DHIA, 39 herds had an average fat production of 150 pounds per cow per day for the month

During the month 229 completed their 305 day lactation with 600 pounds of butterfat.

DHIA Supervisors working with the dairymen to improve efficiency include Harold Boldosser, 130 Old Gap Road, Carlisle, Paul Wynn, R1, Box 88, Newburg, and Jay Zeigler, R1 Carlisle

The following are the highest actual butterfat in 305 days or less in the county during the month. The age listed is her age at the time of freshing.

FRIDAY, OCTOBER 24
Details in next week's issue of Lancaster Farming

Volume-Belt[®] cattle feeder

by JAMESWAY[®]

Costs less

Simple design gives you big-capacity performance at a lower cost per foot than other feeders in its class. Few moving parts to cause feeding slowdowns. Takes only 1 hp to load up a 190 ft. bunk, so you save on power costs while you save feeding time. Fast, quiet and dependable, too.

See us for systems and service that help make the good life better.

HEAT FOR LESS

THERE ARE TWO WOOD STOVES IN THIS PICTURE

The one you see is an open stove, with all the beauty of the open fireplace. The one you don't see is an air-tight stove that heats up to 9,000 cu. ft. for 10 hours when you close cast iron doors.

The Upland is designed to be used either free standing or vented into an existing fireplace. Either way you get two stoves in one.

WOOD HEAT

Rt 212, Pleasant Valley Quakertown Pa
