Another Pennsylvanian, William J. Warren of Furlong, Bucks County, fared well, exhibiting the reserve senior champion bull of the Angus show. His entry was Waltz Massive Lad 1128, a senior yearling.

South Branch Farms of York, York County, exhibited the best six head of the show.

Premier exhibitor went to Ascent Angus of Oakland Illinois, while Gallagher's Farm, Inc. of Ghent, New York, won the premier breeder award.

Earl and William Renner exhibited the reserve grand champion bull of the Hereford show. Their entry, RF Li 359 Domino 048 was also named the champion bull calf. The Greene County farm exhibited the reserve champion bull calf, RF Adv 359 Chief 007 and the champion yearling bull, RFL Command 940.

The Renners also were

The reserve grand champion Polled Hereford Bull, Walking Tall, was exhibited by 4-K Cattle Co. and Y-Not Farm, Dayton.

named premier exhibitor and premier breeder of the show and took first place in the get of sire and best of six head class.

In the F...ford female

competition, the grand champion female was exhibited by Woodbury Stock Farm of Penn Yan, New York. Their entry, GH MS Prospector, was a summer yearling heifer.

Reserve grand champion female of the Hereford show was an early spring yearling entry shown by Elizabeth Mullinix of Woodbine, Maryland.

In the Shorthorn and Polled Shorthorn Show, Brad Douthit of Orange, Virginia, showed the grand champion female. His winning entry was Windholme Magnolia 319, a late spring yearling.

A Greene County farm, Woodside Farm of Waynesburg, showed the reserve grand champion female. Their entry was Woodside Cynthia Rose 4th, a junior heifer calf which was also named champion calf of the show.

The grand champion bull was exhibited by Windholme Farm of Orange, Virginia, and Woodside Farm of Waynesburg, Greene County. Their entry, J.A.F. Major Duke 78, was a senior yearling bull.

Windholme Farm took the reserve grand champion bull (Turn to Page A24)

PYR CHORE-TIME MID

REVERSE CAGE LAYER SYSTEM

★ LESS BIRD STRESS

The system has been designed for bird comfort! Each bird has her place at the feed trough. Each has easy access to water. Obstruction to light and the flow of air have been greatly reduced, providing more uniform ventilation and lighting for every bird. Combined with Chore-Time's automatically controlled air inletting system, you get a layer house environment designed for bird comfort and the resulting better production.

★ MINIMIZES FEED WASTE

Not only the physical shape of the feed trough, but the operation of the feeder has been engineered to reduce feed waste. The trough shape cuts down on feed loss from "raking" and "billing," while the feeder has been specifically designed for Chore-Time's programmed and performance feeding concept.
