

NEUERO

# NEU-VEYORS

Select from several air-conveyor models for PTO or self-powered operation. There's a size to fit your volume needs.

Move grain or feed the easy, modern way with air! A Neuro NEU-VEYOR System offers many advantages over legs, augers, drags, sweeps ideal for loading or unloading flat storage!

1. No dust! Eliminates choking dust dangers.
2. Safer! No danger from augers, sweeps, etc.
3. Boost grain quality! Aerates... less breakage.
4. Versatile! Portable... goes anywhere... more uses.
5. Gear Driven! More dependable than belt-driven.
6. Less labor! One man operates... saves wages.
7. Handier! Picks up spills... cleans out remote areas.
8. Low maintenance! Engineered for lifetime use.
9. The answer to flat storage problems.

See us for complete details on a Neuro NEU-VEYOR System to fit your needs now and for the future. Ask us for a demonstration.

## ATTENTION FARMERS! ADVANCED AG SYSTEMS INTRODUCES CIRCLE STEEL BUILDINGS

### DO YOU REALLY NEED A STORAGE BUILDING THIS GOOD?

If you could afford a new building every 10 years, a Circle Steel building wouldn't be necessary. But most farmers make an investment in a building that will last longer than 10 years...many are investing in Circle Steel to get that longer life with less yearly maintenance.

If you want long-term return on your building investment, make it a Circle Steel...from

## Dairylea elects five directors

PEARL RIVER, N.Y. — Clyde E. Rutherford of Otego, NY, has been re-elected president of Dairylea Cooperative. He is the Dairylea District 9 director and an active dairy farmer.

Elected first vice president of the cooperative was John H. Widger of Ellcottsville, NY. He is director of Dairylea district 2.

Silas Eakins was re-elected secretary of the cooperative. He is director of district 11. His farm is near Potsdam, NY.

Re-elected second vice president was Ainsworth W. Sondericker of Attica, NY. He is district 3 director.

Robert W. Whipple was re-elected treasurer. The Towanda, PA dairyman is director of Dairylea district 5.

Dairylea is the northeast's largest farm-to-consumer marketer of milk and milk products.

In its fiscal year ending March 31, 1980 Dairylea handled more than 2.1 billion pounds of farm milk for its members, with net sales of \$408,000,000.

ANDY GLICK, Oley, Pa.

"I used to get my crib corn shelled for feeding my hogs. But since that cost around 8¢ a bushel even before hauling costs, I decided I'd be better off with storage. I went with the Harvestall and have never regretted it.

"I've put as high as 32% moisture corn in my Harvestall and you know, I've never had a mold problem."

"So I'm impressed with the Harvestall system and the quality corn I get with it. And I get it cured down for less than it used to cost just for shelling.

"I've recommended the Harvestall to my friends. I'm really happy with it."

# "Harvestall Chillcuring works great. I get top quality corn for less than I used to pay for shelling alone."

**The Harvestall  
Chillcuring System**

It's simple. When grain comes out of the field it's a living seed. So instead of destroying the seed with high heat, moisture is removed with natural air ventilation. The grain keeps all its feed value, there is less shrinkage than with heat drying because only moisture is removed, not dry matter. You'll never see white dust in Chillcured corn. You actually save half of what you're used to losing in heat shrink.

There's no gas or oil to buy. Natural air carries away heat and moisture as the corn releases it.

Harvestall Chillcuring is a back-to-basics system that just simply makes good sense. Find out more about it.
