

130-hp 4440

A beefy response to your long-term needs

The 4440 is indeed a powerful performer. But just as important, it has the strength to back up that power in the field. From stem to stern, it's beefier than its predecessor. There's a bigger-displacement engine, new engine cooling system, bigger transmission/hydraulic oil cooling system, 4-pinion differential, wider final drives, and bigger drive axles. These are just a few of the points we'd like to cover when you stop by the store and ask for more information on the 4440.

400-bushel capacity

This John Deere 680 Spreader's 400-bushel capacity makes it the biggest spreader we have ever engineered. And most likely one of the largest you'll find anywhere. You'll like the hydraulic shift control and lifetime-warranted all-steel sides. You'll also appreciate the fully hinged shielding and tandem walking-beam wheels, too. Stop in to visit with us about the 680 Spreader.
