Volunteering brings satisfaction

FLEMINGTON — People are finding satisfaction from volunteering their skills and time to 4-H activities, says Phyllis Stout, 4-H program coordinator for Cornell Cooperative Extension.

"There are many different groups of people who enjoy the creativity and satisfaction that come from working with 4-H members," says Stout, "and 4-H programs should be flexible enough to accommodate

them." People who work outside the home often have difficulty coordinating their busy schedules to allow time for volunteer activities, and Stout suggests that consideration be given to

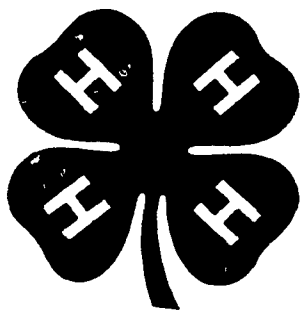

designing volunteer jobs to fit their needs.

Childless couples are another group who may enjoy participating in 4-H activities for the contact it provides with young people. "Just because a couple

decides not to have children doesn't mean they don't enjoy being with them," says Stout. Teenagers and senior citizens may also enjoy the friendly contacts that volunteering in 4-H activities provides.

Jonathan B. Harcum, son of Mr. and Mrs. Edward Harcum, Laurel, won the 4-H automotive award. He is a member of the Peach Blossom 4-H Club.
