

What makes Beacon shine?

When we make our feeds, we manufacture them at thirteen locations and distribute them from nineteen in our area, including the middle Atlantic and New England states, plus the mainland portions of Maryland and Delaware.

We don't operate these facilities as "branches". They're each autonomous satellite operations that make feeds that match the needs of farm operators in their surrounding areas.

Therefore, what these satellites manufacture is the freshest, most palatable feed possible.

The geography and autonomy of our system does not affect our consistency in quality from plant to plant. Our Quality Control lab in

Cayuga, New York, for instance, uses the latest analytical techniques in assaying feed ingredients and finished feeds

So, the same high quality is assured, whether it's from York, Pennsylvania or Swanton, Vermont. What's more, this decentralized manufacturing and distribution means you work with local people who understand local conditions. You're not just relying on a source of supply that's hundreds of miles away.

We're consistent in quality...one of the many reasons why Beacon shines. Find out more. Write us. Or call us collect at 315-253-7331. Beacon—headquartered in Cayuga, New York... manufactured in plants throughout the northeast
