

Unique in this part of the country, the Rain Bird cow washing system cleans the milkers off. The units are installed in the holding area outside the parlor.

## Charolais showcase coming up

HOUSTON 1x — Charolais activities in Denver will be a showcase for the breed during the 75th National Western Stock Show in January.

Seven scheduled events include the 2nd Annual National Charolais Sale, 3rd Annual Charolais Herd Bull Alley, 6th Annual National Charolais Junior Heifer Show, 7th Annual Charolais Penn Bull Show, 12th Annual National Charolais Show (AICA Area 4 Roll of Excellence Charolais Show) 24th Annual AICA Membership Meeting, and Charolais Night At The National Western Rodeo featuring the 1981 Parade of Charolais Champions.

The following is a schedule of Charolais events:

## Pregnant herringbone

(Continued from Page A43)

Later, a pair of 12-inch pipes flush the floors of the entire system from parlor straight through the holding area into a pit at the far end of the holding area.

Has it all gone smoothly at Fair Hill Farms?

So far, it seems, the expansion has been going well. Agri-Inc, of Farmersville, started building on April 6.

The first 100 cows were milked on September 8. For the past 30 days the Freys have had 450 cows through the parlor.

And, for the past two

weeks, they have been on three times a day milking.

Currently the Freys are installing a manure generating system and sometime in the near future they will be producing electricity using waste from their cows. It is another efficiency they are trying to build into the operation.

And as per cow efficiency becomes more important, it is likely dairymen will see more of their neighbors striving to realize economies of scale on equipment inside the barn as well as in the field.

# Mol-Mix

liquid supplements

## Quality ingredients add up to a quality product.

Most of you dairymen know that supplementing your cattle's diet is a mandatory part of any dairy operation. And you probably know that liquid supplementation is the most efficient (and therefore, least expensive) way of doing it. But, what you may not have considered is this: If you're not using a quality product, your efforts may be in vain.

Mol-Mix is made with the finest quality ingredients available, including those which are performance oriented to give you the results you're looking for. Yet these special ingredients, things like phosphoric acid, ammonium polyphosphate, corn distiller's solubles, and condensed fermented corn extractives, are the very ones that many other supplements lack!

You might not realize just what these extra ingredients can do. Drop by your Mol-Mix dealer and let him show you what each adds to the quality of Mol-Mix.

But one thing won't need explaining: the dollar-and-cents advantage of Mol-Mix. Our quality ingredients mean more net profit for you. Some dairymen report as much as four and a half dollars return for every dollar invested in Mol-Mix.

Mol-Mix liquid supplements: it all adds up to a lot more quality.
