## Switch fertilizer tanks to a Calumet liquid manure spreader with soil injector.

Livestock manure is valuable. So it makes sense to keep as much of that value in the ground as possible. A Calumet 2 or 4-shank soil injector does just that. Teamed with a Calumet liquid manure spreader, the injector puts manure as deep as 12 inches. This can help retain four times the nitrogen that's lost with

surface application, as well as reduce odors and runoff.

See the full line of Calumet spreaders from 1625 to 4500 gallons, and Calumet 2 and 4-shank soil injectors at—
