PYR CHORE-TIME MID

REVERSE CAGE LAYER SYSTEM

★ LESS BIRD STRESS

The system has been designed for bird comfort!

Each bird has her place at the feed trough. Each has easy access to water. Obstruction to light and the flow of air have been greatly reduced, providing more uniform ventilation and lighting for every bird. Combined with Chore-Time's automatically controlled air inletting system, you get a layer house environment designed for bird comfort and the resulting better production.

★ MINIMIZES FEED WASTE

Not only the physical shape of the feed trough, but the operation of the feeder has been engineered to reduce feed waste. The trough shape cuts down on feed loss from "raking" and "billing," while the feeder has been specifically designed for Chore-Time's programmed and performance feeding concept.

★ LET US SHOW YOU A REVERSE CAGE SYSTEM IN OPERATION

Good thinking! Stop baling,

start feeding haylage the Madison Nutri-Matic way

There are good reasons for you to process medium-moisture haylage in a Madison Nutri-Matic. You feed top-quality nutrition and roughage and never handle another hay bale again!

Madison Nutri-Matic makes it possible. The oxygen-limiting bottom-unloading structure feeds out haylage at the touch of a button. You get unmatched Madison quality in every stave, every hoop, the fiberglass roof, the Nutri-Matic bottom unloader—and there's more room for forage.

Call us. Let us help you get more for your money, with the structure and accessories you need. If you need more information, we'll show you why choosing a Madison Nutri-Matic is plain good thinking.
