# G.S.I. GRAIN BINS

COMPLETE GRAIN DRYING AND STORAGE SYSTEMS

ORDER BEFORE DECEMBER 24, 1980 & GET THESE SAVINGS & BENEFITS

1. Save on extra 10% winter discount.
2. Beat the approximately 7% price increase.
3. Get the 10% investment credit this year.
4. Avoid backorder problems and extra handling costs.
5. Delivery can be delayed till June 1, 1981

THE SAME DISCOUNT IS AVAILABLE  
ON COMPLETE SYSTEMS AND  
TURN-KEY INSTALLATIONS

**FREE INFORMATION**

PLEASE SEND INFORMATION & PRICES ON THE FOLLOWING ITEMS:

- Martin Flo-Moor
- Martin Low-Temp
- Meyer Batch Dryer
- Storage Bins
- Hopper Tanks
- Transport Auger
- Grain Cleaner
- Bucket Elevators
- Dump Pit
- U Trough Auger
- Chain Conveyor
- Mix-Mill Feed Factory
- Mix-Mill Grinder
- Mixer
- Automatic Mill System
- Pneumatic Feed Blower
- Soybean & Corn Roaster
- Feed Tanks
- Feed Auger System
- Flex Augers
- Alcohol System
- Others

### LOW TEMP SYSTEM

Why waste your money on expensive fuel when you can dry your grain with natural air? The Low Temp Control automatically allows the drying fan to run only when the natural air has the qualities to remove moisture. If continuous drying is required the fan will run continuous and the Low Temp Control will operate the L.P. Heater to add an additional 7° of heat when the humidity and temperature of the natural air does not reach drying levels. This system is the most efficient on the market because the operating cost of electric light bulbs or electric heaters are 3 times more expensive than L.P. gas and also this system only adds heat when it is necessary.

A bottom unloading auger can be installed into this system so the dry grain on the bottom can be removed while there is still wet grain drying on the top. If at any time faster drying capacity is required either a Stirway or Flo Moor unit can be added.

### STIRWAY SYSTEM

Install a stirway and increase your drying capacity you no longer have to stop combining because of a low capacity dryer. Grain is continually fluffed up which reduces the static pressure as well as increase the air flow through the grain. Stirway also assures of even moisture content throughout the bin and prevents hot spots and spoiled grain.

Why not LEASE a bin or a complete grain drying and storage systems and get the 10% investment credit plus a 100% tax write off. Call us for more information and let us show you how to make a lease plan pay for itself. It is all legal and approved by I R S.

### FLO-MOOR SYSTEM

This unique system allows you to dry grain in one drying bin and automatically transfers dried grain to any number of storage bins. No switching of transport augers from drying bin to storage bins. System works automatically without any babysitting. Higher drying capacity is attained because dried grain is removed from the drying bin instead of mixed with high moisture grain.

### 3 WAY INSTALLATION

Do it yourself with our easy instructions and jacks, or have our experienced supervisor assist you, or we will give you a contract price on a complete turn key set up.

### SECONDARY SALE ON BINS & FLOORS

Various Sizes In Stock  
In Warranty Slight Imperfections, Limited Quantity

WE RECEIVED TOP PA DISTRIBUTOR AWARD FOR 1977, 1978 and 1979 By G.S.I.
