Save that poinsettia for next year

LANCASTER — You can enjoy the poinsettia you received for Christmas beyond the holidays if you follow these tips. Keep your poinsettia in a sunny, warm window but make sure it is not drafty. If there is danger of chilling at night take the plant out of the window before you go to bed.

Try to maintain soil moisture at moderate and uniform levels. The soil should be neither too wet nor too dry. When the top of the soil is dry, water it.

After the plant stops blooming and the leaves begin to fall, gradually stop watering it. The leaves will soon turn yellow and fall. Store the dried-off plant in a cool dark basement at 50-60 degrees until April or May and water it lightly. Give it just enough water to keep the roots and stems from drying out.

In May, cut the stems back 3 to 5 inches and repot the

poinsettia. Then put the plant in a warm sunny place in your yard and keep it watered and fertilized during the summer.

Before cool weather sets in next fall, bring the plant inside again and put it in a window facing south where it will get lots of light.

If plants are to flower they must be kept in darkness from 5 PM to 8 AM from the first of October to Thanksgiving. It takes a lot of special care but some people like the challenge of trying to flower their 1980 poinsettia for Christmas 1981.
