

Warehouse Direct To You At Big Savings!

Get The All New Red Barn "Royal" Comfort Master Cow Mats.

Red Barn is the original 100% vulcanized molded rubber mat - Since 1968. Red Barn is a true cow mat offering all the benefits and features a cow mat should offer a dairyman and his valuable cows. For many years Red Barn has been North America's largest selling mat, therefore, the last 2 years the mat has been in very tight supply due to record demand. Finally, after 3 years of expanding manufacturing, mat availability is very good. As you read on and see the reasonable prices you'll know the rest of the story as to why Red Barn is North America's largest selling mat.

Banker's figures show a Red Barn cow mat will pay for itself in one year due to a 80% savings in bedding alone. That's a 100% return on investment the first year!

NOTE THESE SPECIAL QUALITIES

1. RED BARN is the thickest mat there is, measuring over 3/4".
2. Surface has a grained, pebbled texture for easy cleaning and non-slip qualities.
3. Surface is resilient for comfort, yet springs back to original form.
4. TOUGH. Each mat contains vulcanized rubber NO WIRE, METAL OR CLOTH BONDING MATERIALS ARE USED.
5. RED BARN is non-absorbent

★ Red Barn is 20% heavier than most mats - thicker too! More for your money!

Delivery & installation available - optional

- ★ Mother Nature never intended for animals to be on concrete. Man did this and has been paying the bill in losses ever since.
- ★ Red Barn Mats are not slippery even when wet. They have no grooves or ribs on top so they are easy to clean. There are no openings under mat to allow air to breed bacteria.

- ★ Install on top of concrete or cement them in concrete
- ★ Red Barn sells a true cow mat not a warranty. A Red Barn mat has a "Three year unconditional guarantee and replacement warranty."
- ★ Field tests, laboratory experiments and countless commercial installations show the life of Red Barn vulcanized rubber floors to be indefinite. Negligible wear is found after more than five years of constant use.
