## ST-100 MIXER

Here at last is a 5 x 8 foot 4-auger stationary mixer. It's the FEED EASY ST-100 mixer. This new unit is specially designed for the dairyman with 50 or less cows. Still it brings you all the FEED EASY features that let your feed Total Mixed Rations (TMR) to your cattle. You know it's the precise blending of rations you feed your animals that is the key in building return on your investment.

### SPECIAL FEATURES:

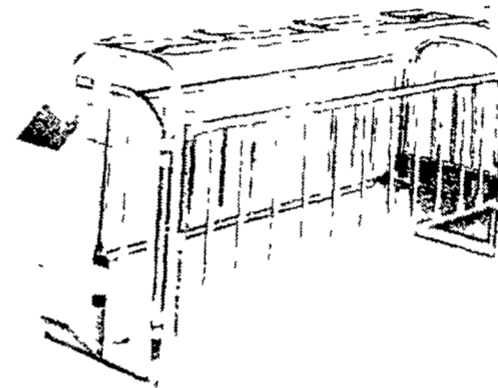

- 4 Auger System
- Enclosed Oil Bath Drive
- Heavy Duty Augers
- Electronic Scales

## RAISED CRATE DECK

- Increase profit by reducing stress & death loss
- Allows economical conversion of existing facilities for crate use
- Simple to assemble deck and install farrowing crate
- Cost and problems of pit and liquid manure equipment are eliminated

## FARROWING CRATES

Ideal's new tubular crates fit into farrowing systems that are total confinement operations or those where sows are turned out for feed and water. End frames, end gate frames, top guard and side panel frames are all made from heavy-duty 1 1/2" galvanized steel tubing. Inside width adjustments are 20", 22" and 24" on the new Ideal crates. Side panels on crate are adjustable at 9" and 12" from the floor.

Livestock Equipment

## HOG FEEDER

### FINISHING FEEDER:

- Built to last. Made out of heavy steel
- Large top opening for easier feed fill
- Large hopper provides plenty of feed

## 14 DOOR GIANT HOG FEEDER

- Larger diameter holds more feed for delivery at discount prices
- Rubber bumpers on doors for extra year
- Extra heavy strap iron agitators for free flow of any type feed
- Extra heavy gauge doors
- More than ample headroom for brood as market hogs

## The Weaverline Series 300 battery-powered Feed Transport - Cart!

### CHECK THESE ADVANCED - ENGINEERING FEATURES

#### PROVEN UNLOADING-DRIVE LINKAGE

Smooth-running roller-chain and belt-drive combination provides 6 conveyor speeds plus individual on-and-off control of upper and lower sets of augers.

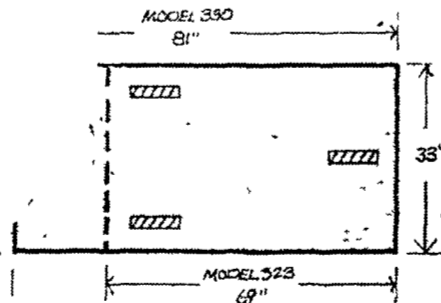

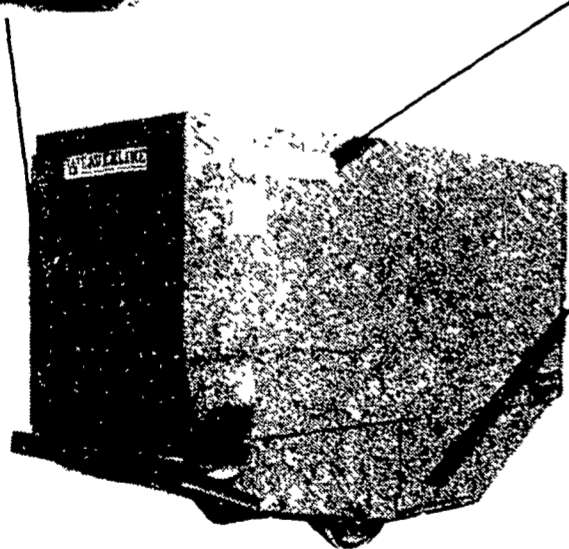

#### CONTROLLED UNLOADING

Apron conveyor and two pairs of augers can be controlled individually. Upper augers prevent bridging. Lower augers and conveyor control discharge flow.

#### CONVENIENT POWER PACK

Weaverline 4-unit battery pack provides plenty of transport and unloading power. Batteries roll out either side of quick servicing. To charge, just plug into charging receptacle from any 115 volt AC power source.

#### TWO MODELS

For maximum capacity, the larger Model 330 measures 81 inches long, 33 inches wide and holds 30 bushels. For tight corners, the compact Model 323 69 inches long and 33 inches wide. Holds 24 bushels. Tricycle running gear makes both units easy to turn—easy to guide.

#### For mechanized dairy feeding!

Cut your labor costs with this modern Weaverline material-handling system. Built to stand up to years of heavy loads, Weaverline Series 300 feed-transport carts are designed with larger discharge augers, more auger clearance, extra-heavy steel bottoms, stronger conveyor shafts and heavy-duty bumper guard shields. For a dairy feeding system that demands minimum maintenance and service, specify Weaverline. See these new Series 300 transport carts at your dealer. Or write Weaverline Corporation, Churchtown, Pennsylvania 17510. Telephone (215) 445-6724.

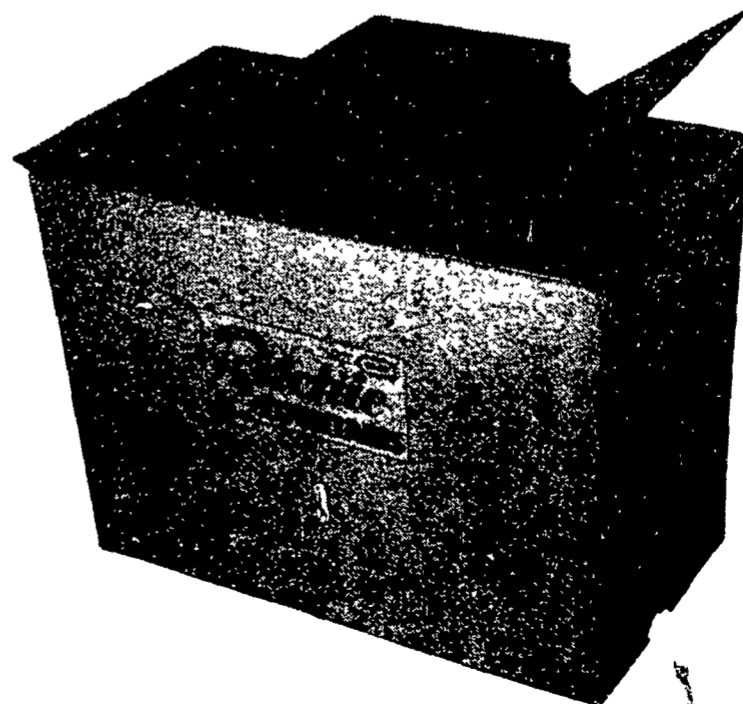

Ritchie® Fountains deliver. Even in the de-ter they are out there working. You're not.

Weatherproof. You bet they are. Heating and efficient insulation keep water ice-free. Set the Watt Watcher™ thermostat for energy use. Big-throated, non-stick glass keep water gushing in. Each of your cows get water they need to promote peak production. Ritchie Fountains are tough, too. Qu with rugged heavy galvanized steel and epoxy finish to stand up to weather and abuse.

Why take chances on anything less than yellow Ritchie Fountain? Call your Ritchie for water that won't quit.
