There's a **Yetter** way of cultivation...

The *Yetter* Rotary Hoe

More positive weed kill... more effective chemical entrance

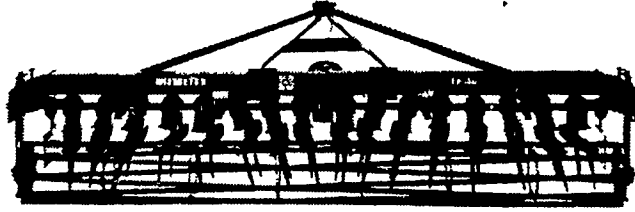

Spoon-billed teeth rake through the ground, shattering crusty soil, kicking out weeds for sure-kill. Chemicals are pushed into the aerated soil. That's the Yetter way of cultivation... the Yetter Rotary Hoe way!

The teeth are self-sharpening. Wheels turn on sealed ball bearings with less friction, less wear, less power needed. There's only one 21" wheel per spring-cushioned arm to reduce stress, increase flexibility. Wheels follow ground contours, roll over the rocks that break up other hoes. Individual arms can swing up out of the way to match plant rows. Look into the Rotary Hoe... the Yetter way of improving cultivation... at your Yetter Dealer... or write direct.

NIEMEYER

Power Harrows FIRST IN THE FIELD

The Niemyer line of quality Power Harrows outperforms the rest for one-trip ready, perfect seedbed preparation. Single operation tillage reduces soil compaction, retains moisture in the seed zone... you harvest the savings in time and fuel. The Power Harrow can also be used for chemical incorporation, clod busting, weed control and leveling. Five models available for flexibility in dealing with adverse soil conditions.

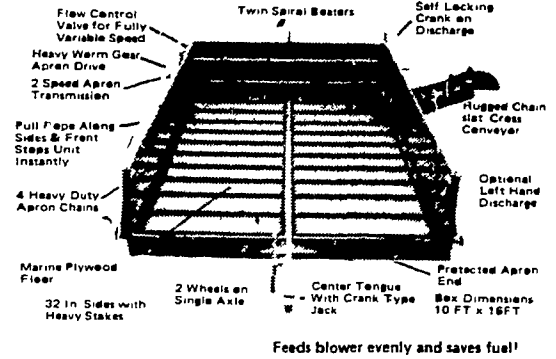

See for yourself... A KMN representative will be glad to arrange a demonstration. Call, or write today to:

you've decided!

To improve the efficiency and reduce the time and labor in your forage handling operation... You need a high volume efficient way to keep your equipment moving. Check out our

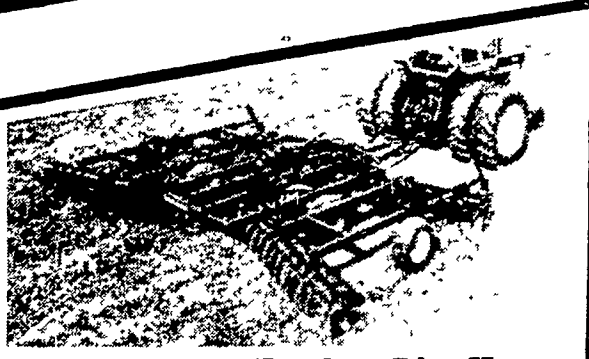

STATIONARY CONVEYOR BOX

we've decided! AT *Balzer*

To build only the best... or we won't build it! For years BALZER has had a reputation of OVERBUILDING its products and that is the way it is today. Each product is designed and built to give years of trouble free service. We offer a complete line of spreaders, feeders, mixers, and forage handling systems. Call or write today for further information and prices.

Sunflower has it!

... the Tandem Disc Harrow

If you're considering new **TILLAGE & SPRAYING EQUIPMENT**, consider these two!

HITCHHIKER® DRAG BAR HARROW

The patented **HITCHHIKER® Drag Bar Harrow** attaches directly to any secondary tillage tool you choose. The 3" heavy duty leveling bar does an extra effective job of breaking, leveling and firming the soil without floating. Two simple adjustments accommodate all differences in working depth and soil textures. The unique tooth design produces a rolling action that churns and cuts the soil more effectively incorporating chemicals and putting the finishing touches to the seedbed. Fits any **OLD or NEW Discs, Field Cultivators, Chisel Plows** and other tillage equipment.

LOW PROFILE SPRAYERS

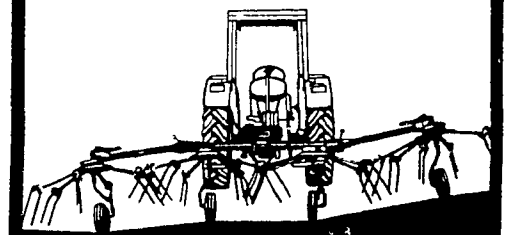

LEE-FARMITE Sprayers feature heavy duty fiberglass tanks, heavy duty frames and undercarriage and cross type booms. All sprayers can be equipped with a constant rate variable speed pressure system that compensates for variations in application speeds. Are available in trailer, 3 point, saddle mount, skid mount for pickups and the **NEW** patented front-mount **BUMPER SPRAY** models available in 100-1000 gallon capacities. Ideal for all herbicides and liquid fertilizers. High-capacity centrifugal pumps are recommended and roller pumps are available.

For more details see your nearby **LEE-FARMITE** dealer!

DEUTZ-FAHR... THE GENTLE POWER IN THE HAYFIELD.

The hay's down and it rained.

The rains may soak your cut hay but the Deutz Fahr Centipede Haymaker can save your crop. It lifts, turns, fluffs, spreads and flexes the stems to release moisture fast. You get fast air-drying, save more nutrients and maintain hay quality. Stop in soon and check out the new Deutz Fahr Centipede Haymaker. See why Deutz Fahr is the gentle power in the hayfield.

PURE PROFIT!

Standard hydraulic folding brings even the largest Kent Field Cultivator to an extremely compact transport width. Kent performs better on the road or in the field.

From 62 models in four series, there's a Kent Field Cultivator right for your operation. From 12' to 60' wide, all models are known for their durability, with the strongest shank and frame in the business. The special design Kent Magnum shanks till more consistently than do competitors. You can add Kent Coil-Tine Harrows to finish as well as cultivate. And you can even apply ammonia or herbicides at the same time. Till more efficiently with Kent, and watch your profits rise.
