

THE VERY BEST GRAIN STORAGE

BAZOOKA®

GRAIN MOVING SYSTEMS

Components that move grain can be as important as the storage bins or drying bins you choose. Augers are the heart of your system because they do the work . . . keep you going during the busy harvest time.

Bazooka augers are long lasting and smooth running. You have a wide choice of capacities, accessories and drives. You can also expand any Bazooka system with a minimum of expense.

It's the time to **PLAN,**

the Centerville Exit

**Let Bazooka®
do the work!**

BAZOOKA transport augers have chrome-plated intake flighting that doubles its life, a galvanized drive shaft that reduces maintenance time, and permanently lubricated, precision machined chain reducer drive with cast iron housing. Plus many other timesaving, convenience and safety features.

BAZOOKA transfer augers have important differences at the drive end, like heavy duty thrust bearings; machined, cast iron sheaves, and easily adjusted motor mounts supported equally on all four corners.

BAZOOKA sweeps and unloading augers can make quick work of emptying out a bin. Portable types can be moved from one bin to another while permanent types are driven by powerheads located outside the bin.

BAZOOKA Grainclean'r is a rotary type scalper/cleaner with a built-in fines collector.
