Now ... move big volumes fast with 2 new big-capacity International spreaders

If you have a lot of manure to haul and spread throughout the year, we have some good news for you — two big-capacity, high-strength spreaders

The 595 has a heaped capacity of 343 cu ft, the 575 a heaped capacity of 271 cu ft. Here's capacity to make short work of your biggest spreading jobs, capacity that will give you more time for other jobs. Both models have tandem wheels on bogie-type axles to help ease heavy loads over rough ground at fast spreading speeds

Finance plans available.

For smaller spreading jobs, IH offers you the 550, 540, and 530 spreaders with single axles and heaped capacities from 148 to 216 cu ft. They have many of the design features you'll find in the larger sizes

- Bear Claw beaters for good shredding and spreading action
- Beveled worm gear for long life of the drive components
- Penta-treated 3/4" plywood floors
- Rust-resistant steel sides (guaranteed to the original owner for the life of the spreader)

SPECIAL THIS WEEK:
575 SPREADER
