

PERFORMANCE PROFILE

The 50-hp 2240's lugging power will amaze you . . . and many comfort and convenience features will boost your performance

The John Deere 2240 features performance you'll like in the field or feedlot. The 3-cylinder, 50-hp diesel engine provides plenty of lugging power, and the 8-speed collar-shift transmission and the rest of the drive train are toughened up to match. You'll also find a Load-and-Depth Control hitch along with closed-center hydraulics as standard equipment on the 2240. Features on the 2240 also take into consideration operator performance. An electronic instrument panel clusters lights and gauges for easy viewing. And the seat is completely adjustable for riding and operating comfort. The 2240 — its performance is worth checking out.

115 Level-Action™ Disks

Simply turn the crank for level disking from 7²/₃ to 14¹/₄ feet wide

Here's the ideal disk for preparing level seedbeds and disking-under light cover. Its 65 to 85 pounds per blade and 7¹/₄- or 9-inch blade spacing help mix and stir the soil.

Turn the leveling crank clockwise to reduce a center valley, counterclockwise to reduce a center ridge. Team this disk with your 40- to 100-horsepower tractor to smooth out your disking problems.
