Only BIGFOOT LORSBAN stomps both rootworm and cutworm, too.

Read the labels of all rootworm insecticides. There's just one that's labeled "for the control of cutworm." That one is Bigfoot Lorsban. Yet surprisingly enough, it costs only about what you pay for ordinary rootworm insecticides.

Yes Bigfoot LORSBAN 15G Insecticide is unique. Unlike other insecticides, it provides excellence of control over rootworm while it controls the growing and spreading menace of cutworm.

And neither rootworm nor cutworm has shown any resistance to Bigfoot Lorsban.

Because Bigfoot Lorsban stomps both rootworm and cutworm, too, it kicks your corn yields up.

So switch to Bigfoot Lorsban. It isn't like anything you've used before. It's the big insecticide.

Don't be fooled. Read the label.
