

**Talk to the man who knows**

## Badger Northland's Bale Chopper Handles Them All - Corn Stalks, Hay or Straw

Reduce labor and cut bedding costs up to 40% with the new Badger Northland Bale Chopper. No more breaking and shaking bales with this handy unit. It easily chops and spreads any type of baled material, all in one single operation. Makes low quality hay more palatable and improves the operation of manure transfer pumps.

Individually adjustable doors allow bedding distribution to both front and rear, as well as to the manure gutter. Big 16" tires and swivel caster wheel make maneuvering effortless. And the handy storage rack for extra bales insures nonstop bedding.

Available with either 4.5 hp or 6.5 hp gasoline engine, or 3 hp and 5 hp electric motor.

Save time and money with the new Badger Bale Chopper. See your Badger dealer today.

## Badger's Feed Weigher-Mixers

**Sure you feed your cows good... but maybe you could be doing better!**

Animals can be "fussy" eaters if given their choice and it may not always be the best for them or your pocketbook.

Whether you're feeding dairy or beef, it's time to consider a feeding program guaranteed to improve feeding efficiencies. Badger's Feed Weigher Mixers and a Complete Blended Ration (CBR) will result in stepped up milk production from your dairy herd or more pounds of gain on your feeder cattle, and that means more profit for you.

Badger Weigher-Mixers are available in sizes and types to match your operational needs. Stationary units are offered in a number of sizes for batch mixing in feed centers, and several trailer models are available for drive thru feeding barns or fence line bunks.

Fast efficient labor saving, blending of a nutritionally balanced ration in Badger's Weigher Mixers is simply the best way to feed your herd. Ask your Badger Dealer to help you with a CBR feeding program and explain the benefits of Badger's Feed Weigher-Mixers.

## Badger's Earcorn Mill handles wet, shucky, even frozen earcorn.

The unique cob crusher unit shells corn and shreds the cob ahead of the rollers which crack the kernels and reduce the cob further. No troublesome screens to change or slow down the capacity. It comes with 8-foot hydraulic intake auger and an 11-inch tilting discharge auger with 10-foot reach. The intake auger swings to the rear for transport and may be operated at any angle from rear to side.

**OPTIONS:** Blower drive with overrunning clutch to power your forage blower and mill from the same tractor. Also blower discharge for direct bin or silo filling.

**CAPACITY:** 420 bushels per hour (Depending on moisture content).

### WAIVER OF FINANCE:

- ON LIQUID MANURE TANKS TILL 3/1/81
- ON FORAGE EQUIPMENT TILL 5/1/81
