Ask the Old Farmer: I have just finished a chair-caning class and I am wondering, why did anyone cane a chair in the first place? L.L., Cleveland

The "rush-bottomed" chair was used in Europe long ago, because people couldn't afford to buy lumber for wooden chair seats, or leather either, still they appreciated a comfortable chair

Home Hints. To add extra life to sweaters beginning to wear thin at the elbows, cut a piece of nylon mesh hose and sew it to the inside of the sweater sleeve at the point of weakness
