## Pennsylvania's Three Top Alfalfa Producers

Champion growers Norman and Harold Davis of Huntingdon, owners of Daland Farms, and Apollo variety alfalfa from RP Seeds.

When Harold and Norman Davis entered the 1980 State Alfalfa Growers Program, they knew the competition would be tough, that it would take a lot to win first place. A lot of yield... pounds of protein... and TDN produced over the entire growing season.

That meant careful planning, proper management and a little luck with the weather. Plus the best alfalfa stand on their entire dairy operation.

The Davis brothers' choice to win? A two-year old field of Apollo, the alfalfa variety bred to beat Phytophthora root rot ("wet foot" disease) and deliver high yields of consistently top quality hay.

The result: Apollo yielded 8.6 tons per acre, with 3,410 pounds of protein and 9,765 pounds of TDN.

And Harold and Norman Davis won first place to become Pennsylvania's 1980 State Champion alfalfa growers.
