

Penn State gets new extension agronomist

UNIVERSITY PARK — Douglas B. Beegle has been named to Penn State's College of Agriculture faculty as an extension agronomist, effective March 1.

Thomas B. King, Penn State associate dean for extension, points out that he is responsible for soil fertility programs, primarily those duties previously carried out by Wayne Hinsh who served as extension agronomist prior to his appointment as assistant dean in the College of Agriculture.

A native of Roaring Springs, Beegle received a bachelor of arts degree in chemistry from Lycoming College in 1974. He earned a master of science degree in soil chemistry and is completing requirements for a doctor of philosophy degree, both at Penn State.

Prior to his appointment to the extension staff he was a research and graduate assistant in the Penn State Department of Agronomy and was a dairy farmer for three years.

Beegle is a member of the

Douglas Beegle

American Society of Agronomy and Soil Science Society of America.

He is married to the former Glenda Ann Buell, a registered nurse. They are the parents of a daughter.
