The Powr-Mizer Forage Harvesters — the capacity you've wanted with the horsepower you already have

Squeeze extra work out of your tractor with the power-stingy 3940 and 3960 Forage Harvesters. Power-efficient features start with the 36- or 48-knife Dura-Drum™ cutterheads. These extra knives shear your crop into a fine-cut, uniform forage. And you can keep the knives cutting at peak performance with the quick-adjust stationary knife. Easy-access design lets you save your back and your temper, since there's no stooping and no shield removal. It only takes a wrench and less than 3 minutes to get an accurate adjustment.

Power efficiency continues with a special 2-speed blower. One speed lets you power through tough crops, like haylage, while the slower setting conserves energy on easy-to-blow crops.

Come by and see all the Powr-Mizer features on the 3940 and 3960 Forage Harvesters
