

THIS INSTALLATION FEATURES THE FOLLOWING EQUIPMENT:

FRISTAMAT VENTILATION

FRISTAMAT VENTILATION IN A FINISHING BARN

THE ENERGY EFFICIENT, FULLY AUTOMATIC SYSTEM FOR LIVESTOCK AND POULTRY.

AIR PATTERN and MOVEMENT

This is the key to excellent ventilation. Twelve individual adjustable nozzles control air direction up and down, the length of throw and velocity. The length of throw is crucial in avoiding down drafts at the walls. The velocity ensures proper mixing of air at the ceiling level, uniform temperature and proper air motion at the livestock or poultry level. This air pattern once set never changes.
