Learn by doing

LITITZ -- When you heard the word 4-H you usually hear the word "project" too. The project, a way to learn by doing, is basic to all 4-H clubs.

Projects are units of learning that focus on a single subject with definite goals in mind. They are informal - 4-H isn't school - but help and supervision are always available from adult and teen leaders.

There is a 4-H project area to interest almost everyone - from energy to animal science, from crafts to communications. Each project area has a variety of specific projects to choose from. In fact, in Pennsylvania today, more than 100,000 boys and girls are enrolled in over 100 different

projects. What do boys and girls get out of working on and completing a 4-H project? A little healthy competition, a lot of persistence, responsibility, and greater knowledge in their project area are just a few pluses.

Some projects, those that involve animals for example, can take a year or more to complete. Others grow or get more complicated each year to keep the 4-H'er challenged. The eight-year-old who learns how to operate a sewing machine and make a log carrier may be the eighteen-year-old who models a carefully tailored suit in the state fashion revue.

Youth grow with 4-H because 4-H grows with youth.

Pegasus 4-H meets

ELIZABETHTOWN -- The third annual meeting of the Pegasus 4-H horse club was held on April 24.

Officers for the newly formed club are as follows: Jessie Zarfoss, President; Jody Florschutz, vice president; Lori Trumbo, secretary; Arlene Wood,

treasurer; Lori Fink and Brenda Vanvader, game and song directors, and the club reporters are David Wood and Diana Frantz.

Leaders of the club are Sherry McCarthy and Steve Statoski of Orchard Hill Farm in Elizabethtown.

4-H'ers attend national conference

WASHINGTON, D.C. - Charlene Gormley, 18, Newtown represented Pennsylvania as one of 4 outstanding 4-H members who attended the National 4-H Conference in Washington, D.C., recently.

Other 4-H participants were: Diane Krause, of R3, Slatton; Brian Robinson, of R1, Rochester; and William Hosler, of R2, Port Royal.

"The four were named to attend the event on the basis of their 4-H records and participation in county and state activities," points out Dr. William Landley, youth program specialist at The Pennsylvania State University.

The conference, with headquarters at the National 4-H Center, was designed to provide meaningful involvement among youth, volunteers, and professional staff in 4-H youth program

development at the national level and to strengthen 4-H public relations efforts and reporting to the public.

The delegates had an opportunity to concentrate their efforts in consulting groups stressing programs of national concern to youth and sharing examples of innovative 4-H programs.

A special highlight for the Pennsylvania delegation was a special session with area federal lawmakers.

Several hundred 4-H members from all states, Puerto Rico, and the District of Columbia took part in the activities.

Charlene, the daughter of Mr. and Mrs. Robert Gormley, has been a 4-H member for seven years. She is a student of Shippensburg State College.

A member of the Wrightstown 4-

H club, she served as secretary, treasurer, song leader, and teen leader.

Perry dairy club meets

ELLIOTTSBURG -- The Perry County 4-H dairy club met recently to hear county extension agent speak on dairy calf feeds.

Four-H entry forms for the county fair are due by the June meeting. Members decided to keep the show for 4-H a part of the regular open show.

The next meeting will be held at the home of Tammy Milligan on May 7 and will feature showmanship. All members needing directions call 780-3241. Parents are asked to attend this meeting also.

Introducing The ALL NEW

HONEY BROOK NATURAL 20 ENERGI BLOCK

For Dairy And Beef Cattle

Net Wt 50 Lbs
GUARANTEED ANALYSIS

Crude Protein, Minimum	20 percent
Crude Fiber, Maximum	5 percent
Crude Fat, Minimum	1 percent
Calcium, Maximum	2.5 percent
Calcium, Minimum	1.5 percent
Phosphorus, Minimum	2 percent
Salt	None
Vitamin A	25,000 USP per LB
Vitamin D	5,000 USP per LB
Vitamin E	10 IU per LB
Sugar as Invert	40 percent

INGREDIENTS Beet Molasses, Soybean Meal Phosphoric Acid, Calcium Oxide, Zinc Sulfate, Ferrous Sulfate, Manganese Sulfate, Copper Sulfate, Ethylenediamine Dihydroiodide (source of iodine) Cobalt Sulfate, Vitamin A Palmitate, Vitamin D Supplement, Vitamin E Supplement Soy Oil

Contains **NO UREA** - All Natural Protein

Remember... ENERGI BLOCK contains no salt and is not affected by the weather.
