

Leaders form Friends of 4-H

UNIVERSITY PARK — Pennsylvania's educational 4-H program is currently serving 153,000 boys and girls and is still growing.

It's growing because an interested group of business and industry leaders recently formed the Pennsylvania Friends of 4-H to develop new sources of financial support to promote the youth program.

"All 4-H alumni, current members and their families, are encouraged to make a donation to Friends of 4-H and become charter members of the organization," says Dr. Maurice Kramer, state 4-H youth program director at The Pennsylvania State University.

Dr. Kramer notes that by becoming a charter member, individuals and groups can help

boys and girls become involved in exciting and worthwhile projects. It also may help the 13,000 volunteer adult and teen leaders to expand their leadership skills and provide a broader program for youth.

"Presently, individuals who wish to support Penn State's 4-H program do not have a viable means to make financial contributions to expand program quality," the 4-H youth director explains. "Pennsylvania Friends of 4-H was organized for this purpose."

To become a charter member, the donation should be made payable to Pennsylvania Friends of 4-H and sent to the Office of Gifts and Endowments, 100 Old Main, University Park, PA 16802.

Dr. Kramer emphasizes that

special educational programs will be developed through the organization. These include:

-Scholarships for teens to develop their leadership skills and abilities. Teen leaders will further develop skills by teaching other youth.

-Innovative county programs designed by youth and adults to reach the needs of youth and to try new methods of approaches.

-Scholarships for 4-H'ers to participate in international programs and to help sponsor youth from other countries while

Goat owners to hear specialist

LANCASTER — The care and management of dairy goats will be discussed and compared to that in other countries around the world at 7 p.m., May 5 at the Farm and Home Center, Lancaster. The public is invited.

University of Delaware Dairy Specialist, Dr. George Haenline, will be speaker. Dr. Haenline has observed the dairy goat industry and dairy goat management in many other countries. In a slide presentation on dairy goat management, he will also be comparing our practices with those of other countries.

visiting with Pennsylvania families.

-Special training programs for adult volunteers to strengthen and expand their leadership potential.

-Assist volunteer leaders to serve on state curriculum committees to advise specialists regarding 4-H project needs.

The event is being sponsored by the Dutch Country Dairy Goat Club and the Penn State Extension Service of Lancaster County.

Dr. Thomas King, left, Penn State associate dean for extension, the first charter member of Pennsylvania Friends of 4-H, receives certificates from Dr. Maurice Kramer, state 4-H youth program director and secretary-treasurer of the organization.

You can trust us.
We protect the biggest investment you'll ever make.

Your house is probably the single biggest financial investment you'll make in your lifetime. And the fact is that untreated or improperly treated termites can extensively damage your house. So, it makes sense to choose Ehrlich for termite control. Why? Because we combine over half a century of experience with up-to-date know-how and old-fashioned conscientiousness. Our reputation for dependability is virtually unmatched. Ask people about Ehrlich, look us over thoroughly. We think you'll decide your house is far too important to trust anyone but Ehrlich to rid it of termites.

Or if you're about to purchase a home, it is especially worthwhile for you to have a termite inspection. Call us.

TIE 'EM TIGHT AND KNOT 'EM FAST.

You can't miss — with a Massey-Ferguson rectangular baler. Ease of operation and day-after-day reliability are what you demand, and exactly what MF rectangular balers deliver.

No wonder. Every one of these MF machines features 3-point roller plunger support — and precise knife alignment for solid rectangular bales. After the plunger packs 'em hard and the knives cut 'em clean, the exclusive Massey-Ferguson Surette Knotter ties 'em tight.

And that's not all. Extra-wide throat openings let you move through heavy windrows with ease. And all MF rectangular baler models give you excellent visibility from the tractor seat.

Stop by and check out these MF balers and the rest of the MF line of hay equipment soon.

High-energy flywheel delivers up to 15% more push than conventional flywheels for extra capacity. Smooths out power transmission.

3-point plunger is simple and strong — needs fewer bearings and adjustments to stay put.

MF's exclusive Surette Knotter for tighter bales. It has up to 30% fewer working parts than other units.

MASSEY-FERGUSON. BUILT FOR PROFESSIONALS.
