

## FORAGE HANDLING EQUIPMENT BY BADGER NORTHLAND!

Forage is a major feedstuff in your livestock operation. That's why it's so important to handle it properly, saving every bit of its nutrient value to produce milk and meat.

Badger Northland builds its line of forage handling equipment to help you attain that goal. Each piece of Badger equipment is designed to perform efficiently and with minimum maintenance.

It's also backed by the best dealer parts and service network in the industry. If you're considering purchasing a new forage box, blower or mower/conditioner, see your Badger Dealer and

### Badger Boxes keep on working long after others have worn out.

When it comes to forage boxes, nothing can beat a Badger Box. Badger builds its own boxes right in Kaukauna, Wisconsin where they maintain rigid-quality control.

A Badger Box is built with channel side stakes for extra strength and specially treated, exterior grade plywood to resist acids, corrosion, and rot. The bolted undercarriage and chain drive are designed to take the toughest punishment.

And Badger Boxes hold their value. At trade-in time many Badger owners are surprised to see their box worth as much as when they bought it new.

### They haven't built a silo that the Badger Northland Blower can't fill.

No matter how high or how big the Badger Blower can fill 'em all.

It's simply the least costly to operate, smoothest running, toughest blower you can buy.

The Badger Blower can operate at 540-650 r.p.m.s. It will take anything you give it, forage or grain (with little or no cracking). It'll blow the highest tonnage with the lowest h.p. And the special Badger magnet catches foreign material before it catches you.

Get together with your Badger Dealer today and get ready to fill your big silo.

# Talk to the man who knows

### Take it all off with a Badger Northland Mower/Conditioner!

Even in the toughest of conditions, the Badger Mower/Conditioner will perform its "clean cutting" duties like no other, without over conditioning.

The Badger Mower/Conditioner will run longer with fewer "u" joints and its adjustable transmission gives great maneuverability. Row width can also be adjusted. See what it's like to own a mower/conditioner that will spend more time in the field than it does in the shop.

Get together with your Badger Dealer now.
