TWO NEW DX MODELS

The New Deutz DX 130 Tractor

DX-120 (110 HP) F6L-913 N.A. Engine
DX-130 (120 HP) BF6L-913 Turbo Engine

Two new Deutz DX-series tractors with new features and positioned at two popular horsepower ranges, were introduced recently by Deutz Corporation, Agricultural Equipment Division.

The new DX120 and the four-wheel drive DX120A version, is rated at 110 pto hp, the new DX130 at 120 pto hp.

New features on these models continue to build on the DX reputation for top fuel efficiency, outstanding operator convenience and safety, and impressive power capabilities.

New on the DX130 are all-new TW-91 transmission, a multi-range Powermatic transmission with 24 forward speed, 8 reverse, all fully synchronized, all new centrally-located front wheel drive (on the DX130A) with a protective wrap-around oil pan, bigger-than-ever lift capacity of 14,332 pounds, more than the weight of the tractor itself.

Both new DX models feature new "mixed control" function (lets operator blend "position" and "draft" control

settings) and improved lower-link sensing in the Deutz Transfarmatic hydraulic system, new EconoCool thermostatically-controlled air-cooling for even greater fuel economy, 6.8% greater.

The DX130, with 106 inch wheelbase, offers the convenient maneuverability of smaller DX models, but can be ballasted to a hefty 17,000 pounds. The new DX130 also features dual-speed pto with hydraulic clutch pack for smooth control, rugged planetary final drive, enclosed outboard disc brakes, plus a powerful fuel efficient, six-cylinder, air-cooled diesel engine — turbo charged on the DX130 — typical of the engines which have given Deutz three fuel-efficiency records and a better fleet average than any other brand.

BACKED BY STUAFFER'S FACTORY TRAINED SERVICE.

Ask Harold Stauffer about the new EconoCool feature.
